Profile

Passionate developer with a lifelong learning mindset.

Experience

Web Developer · [Unbelievable Digital](#)

May 2023 – present (fulltime)

- Developed fullstack web applications using React, React Native, TypeScript, Next.js, Prisma, Redux, Node.js, Laravel, Express.js and AWS.
- Created and maintained MySQL databases for web applications.
- Implemented responsive design and accessibility features to ensure optimal user experience across devices and platforms using Figma, Shadcn, Bootstrap, Tailwind, CSS Grid, CSS Flexbox.

Web Developer · [Sobel.io](#)

Mar 2023 – May 2023 (temporal remote fulltime)

- Developed web applications using React for front-end and Prisma ORM for back-end data access
- Created and maintained PostgreSQL databases for web applications
- Utilized GraphQL to streamline API development and provide flexible data retrieval for clients
- Implemented responsive design and accessibility features to ensure optimal user experience across devices and platforms

Web Developer · <https://smartcitykey.com/>

May 2021 – Mar 2023

I started working on a new project with the aim to study the modern web development stack, in order to become a professional web developer and at the same time, help with the development of my city.

- Managed front-end and back-end development.
- Created a Mobile Responsive User Experience with Bootstrap, then with CSS Flexbox.
- Designed and developed web application using Vanilla JavaScript, then rewrote it in ReactJS.

- Designed two NPM packages in React.
- Built API following RESTful standards to allow users to submit information by storing data in PostgreSQL using Django.
- Build databases and table structures.

Developer · <http://myvisualdatabase.com/>

Nov 2013 – May 2021

I was working on my own project. Database application development environment for Windows.

I also worked as a freelancer, using my own product to develop database applications.

- Developed object-oriented code.
- Developed the full life cycle of the product, from development and documentation to marketing.
- Published an online book for database training using the product.
- Created a stable community around the product.
- Customized database application development for small to medium sized businesses.

Developer · <http://drive-software.com/>

Nov 2002 – Nov 2013 (Own project)

Developer of various shareware applications for Windows.

Education

Sep 2003 – Dec 2007

Tver State Technical University

Bachelor of Science: Computer Science
